S.No.	Drug Name	Biological Name	Developer	Current Development Phase	Additional Information	Start Date	Completion Date	Source
11	E7-specific cancer vaccines	-	National Taiwan University Hospital	-	There are two main goals in this study. First, the investigators would like to establish and compare the differences of HPV type 16 E7-specific immunologic responses between the normal population, people with HPV infection, patients with cervical intraepithelial neoplastic (CIN) lesions, and patients with cervical cancer. Second, they would like to correlate the disease severity of cervical cancer with the immunologic responses to HPV type 16 E7 antigen	2003	2008	Source
12	-	RG3484	Roche	II	-	-	-	-
13	-	Therapeutic Vaccine	Transgene	Preclinical	-	-	-	-
