List of patent numbers

Anchor components	Pat./Pub. No.	Assignee/Inventor	Title
Rotatable anchor	US20030018358	NIDUS MEDICAL LLC	Apparatus and methods for treating tissue
Flexible member	US20050288711	Fallin, T., Wade	Line lock suture attachment systems and methods
Integrated knot pusher	US20060178680	ReGen Biologics, Inc.	ystem and method for all-inside suture fixation for implant attachment and soft tissue repair
Insertion tool	US20050075668	Lizardi, Jose, E.	Knotless bioabsorbable suture anchor system and method
Attachment component	US20040088004	Rosch, Theodor, Gerhard	Suture anchor
Retainer	US20060184201	James, Jervis, E.	Suture retainer with suture guide and method of using a suture retainer with a suture guide
Drill guide block	US20060195108	Fox, Michael, D.	Patellar bone tunneling system
Needles	US20060195121	Boston Scientific	Placing sutures
Staples	US20060190039	Birk, Janel	Implantable device fastening system and methods of use
Knot	US20060190042	Arthrotek, Inc.	Tissue repair assembly
Anchoring screw	US20060142769	Collette, Michel	Anchoring screw for a relay strip or suture
Suture cutter	US20050143762	Paraschac, Joseph, Francis	Suture locking device and methods
