## Drug name

100% Pure Okinawan Coral Calcium

## Drug Uses

100% Pure Okinawan Coral Calcium is made from above sea Okinawan coral which is the purest, contaminant FREE coral calcium in the world. In addition to the 74 aquatic minerals naturally found in coral calcium, we've added vitamin D, magnesium, zinc and AquaMins to give you the most absorbable and comprehensive calcium supplement available.

- Improves bone strength and healthy skeletal function.
- Strengthens bones and teeth.
- Helps prevent and reduce of bone loss.
- Helps prevents and control hypertension.
- Promotes cardiovascular wellness.
- Calcium maintains positive pH for alkaline balance leading to better overall health.
- Calcium is required for normal DNA function.
- Essential for nerve impulse conduction.
- Required for skeletal muscle contraction.
- Calcium is required for almost every major body functions.
- Essential for cell division, immune function, enzyme activity and hormone production.
- Calcium may promote better and deeper sleep.
- Proper calcium levels increases oxygen available for body
- Calcium can improve overall energy levels.

## How Taken

Naturopathic doctors usually recommend one to two grams per day as a maintenance supply for a healthy adult. To reverse a specific condition (i.e. raising pH or building bone density), a double dose is often recommended and to address a chronic condition, a triple dose. No known toxicity level exists. We know of numerous people that have been taking 16 to 24 grams of coral per day for several years and they have only positive reports. It is usually best to take the coral directly before bed, because coral does promote a restful nights sleep. Our tablets contain 500 mg of 100% Pure Okinawan Coral Calcium per tablet making it easy to chose the exact dosage your body requires.

## Drug Class and Mechanism

This product is made from 100% food-grade above sea Okinawan Coral Calcium. We use absolutely NO coral that was dredged from undersea reefs on the ocean floor and do not use any of the cheaper coral now imported from other countries. A small sea animal creates coral by ingesting the ionic ocean minerals and secreting them into a coral formation. This natural balance of 74 organic coral minerals are harvested from above sea coral deposits, crushed into an ultra-fine powder and sterilized with ozone. The natural balance of all 74 minerals is important because each mineral requires other minerals to do its job and in turn, those minerals require different supporting minerals. All minerals must be present for any one mineral to work properly. The organic nature (previously digested by an animal) of the coral minerals is also important. It is very difficult to assimilate minerals, especially inorganic minerals. Organic coral minerals are highly absorbable. What makes the coral minerals so absorbable is the natural ability to become ionic upon contact with moisture. This natural ability to go ionic, combined with the full spectrum, organic formation, makes coral one of the most absorbable form of minerals.

## Missed Dose

Take the missed dose of 100% Pure Okinawan Coral Calcium as soon as you remember. Skip the missed dose and take the medicine at the next regularly scheduled time. Do not take extra medicine to make up the missed dose.

## Storage

Store 100% Pure Okinawan Coral Calcium capsules at room temperature away from moisture and heat. Store 100% Pure Okinawan Coral Calcium liquid in the refrigerator but do not freeze.

## Warnings Precautions

Do not take 100% Pure Okinawan Coral Calcium, if you are afraid to suffer its side effects.

## Possible Side Effects

If your doctor has directed you to use this medication, remember that he or she has judged that the benefit to you is greater than the risk of side effects. Many people using this medication do not have serious side effects. Tell your doctor immediately if any of these unlikely but serious side effects occur:

- nausea/vomiting;
- loss of appetite;
- unusual weight loss;
- mental/mood changes;
- bone/muscle pain;
- headache;
- increased thirst/urination;
- weakness;
- unusual tiredness;

A very serious allergic reaction to this drug is rare. However, seek immediate medical attention if you notice any symptoms of a serious allergic reaction, including:

- ◊ rash
- ◊ itching/swelling (especially of the face/tongue/throat)
- ◊ severe dizziness
- ◊ trouble breathing

This is not a complete list of possible side effects. If you notice other effects not listed above, contact your doctor or pharmacist.

## More Information

- ◊ We guarantee our coral calcium to be the freshest and purest available and we back it with a full 30-day money back guarantee.
- ◊ Contains 74 pure ionic & organic minerals.
- ◊ Maintains positive PH for alkaline balance.
- ◊ Absolutely NO dicyandiamide or dihydrotriazine derivatives.
- ◊ Produces from ecologically safe above-sea coral.
