Drug name

Bust Enhancer

Drug Uses

Bust Enhancer is an advanced, high-potency formulation of active breast-enhancing ingredients specially formulated to help users achieve an optimal enhancement in breast size and fullness. Results:

- The results varies from one individual to the next due to variables such as individual metabolism and/or body chemistry, the findings indicate that users of the formulation can achieve an enhancement of up to a 1/2-cup-size per month, while also experiencing enhanced firmness and fullness.

How Taken

As a dietary supplement, take three capsules daily. Following this dosage recommendation, each bottle will last you one month. Each bottle contains 90 capsules. For optimum results we suggest taking capsule in the morning, afternoon and evening with a meal and/or full glass of water.

Drug Class and Mechanism

In creating and formulating Bust Enhancer, the phytoestrogens are isolated that most closely mimic the hormones that cause permanent breast growth. They are specific growth hormones that the receptor sites in the breast respond to most of all. Bust Enhancer promotes the same kind of natural breast growth that occurs in adolescence. But because your body will produce a concentrated, stronger form of natural hormones, breast tissue that never grew fully during adolescence will develop completely. This growth will be permanent, and continued use of the product is not necessary. Likewise, breast tissue lost through the years can be recovered, and even surpassed. Because Bust Enhancer is so specific to the breast, the breast is the only tissue that will grow. In other words, we have no reported instances of weight gain associated with our product other than tissue and weight gain in the breasts themselves.

Missed Dose

If you miss a dose of Bust Enhancer, use it as soon as you remember.

Storage

Store Bust Enhancer between 59 and 77 degrees F (15 and 25 degrees C). Store away from heat, moisture, and light. Do not store in the bathroom. Keep Bust Enhancer out of the reach of children and away from pets.

Warnings Precautions

Women who are pregnant, lactating, breast feeding, or who are allergic to any of the ingredients should not use Bust Fuel. Women with special medical conditions should consult their physician before use.

Possible Side Effects

Bust Enhancer is an all-natural herbal dietary supplement and does not contain any dangerous steroids, fillers and/or chemical ingredients and has not been shown to have negative side effects on its users.

More Information

Bust Enhancer is an all-natural supplement bottled in an FDA-registered facility. However, the FDA does not evaluate all-natural supplements. The product thus has not been evaluated by the FDA, as it is not intended to diagnose, treat, cure or prevent any disease.
