Drug name

CEE Extreme

Drug Uses

CEE Extreme volumizes the muscles and helps boost exercise performance in activities requiring short bursts of intense activity. Enhanced Creatine has also been shown to help recovery from sports and bodybuilding activities, both speeding muscle repair and easing pain and soreness.

How Taken

As a dietary supplement, take 3 capsules (with 8 to 16 ounces of water) two times daily, including non-training days. For best results, consume 3 capsules 30 minutes prior to training and 3 capsules immediately following your workout.

Drug Class and Mechanism

Creatine Ethyl Ester is creatine monohydrate with an ester attached. The attachment of an ester is significant, because esters are found in the fat tissue of animals. Creatine monohydrate is semi-lipophilic. This means that it inefficiently uses fat as a transport mechanism. The esterification of substances will increase their lipophilic abilities, and thus esterified. The esterification process dramatically improves the bioavailability of the creatine molecule. By super-sizing the benefits of creatine supplementation and greatly down-sizing all of the negatives of creatine monohydrate use (such as bloating, cramping, and possibly harmful waste by-products, the performance of the athlete can be greatly enhanced and taken to the very next level).

Creatine Ethyl Ester will use fat more efficiently to permeate the cell wall and exert its effects upon cellular function than its unesterified

Missed Dose

If you miss a dose of CEE Extreme, use it as soon as possible. If it is almost time to take the next dose, skip the dose and go back to the regular dosing schedule. Do not double the dose to catch up.

Storage

Store CEE Extreme at 77 degrees F (25 degrees C). Brief storage between 59 and 86 degrees F (15 and 30 degrees C) is permitted. Store away from heat, moisture, and light. Do not store in the bathroom. Keep CEE Extreme out of the reach of children and away from pets.

Warnings Precautions

This product is only intended to be consumed by healthy, male adults, 21 years of age, or older. Women should not use this product. Before using product, seek advice from a physician if you are taking any prescription, over the counter drugs, or other supplements, or have any pre-existing medical condition.

Possible Side Effects

CEE Extreme is not known to have any side effects if taken as per the prescribed dosage.

More Information

This product contains only 100% pure pharmaceutical and medical grade ingredients and is regularly tested to ensure the safety and quality. Each ingredient has been approved as safe by the FDA and all appear on the FDA's GRAS (Generally Recognized As Safe) list. This product is manufactured under stringent GMP guidelines that have been set by the FDA. Each bottle comes with a 2 year expiration date and is double sealed to ensure freshness and potency.
